Copy 10 of 10

MEMORANDUM FOR: AFICG-5, Headquarters USAF

ATTENTION : Colonel Leo P. Geary

SUBJECT : SAC Coordination on Telephone Line
Installation

25X1A

25X1A

1. [] has requested a full period telephone drop from [] to the 15th Air Force switchboard at March Air Force Base. This line will be primarily utilized for KC-135 tanker coordination with the SAC base so designated for support. In addition, it will offer a direct cut into SAC S.S.B. and UHF radio facilities by phone patch, for possible emergency or other use in the event they are needed in the future. It is desired that this circuit be installed as soon as possible, but should be operational no later than 1 March 1963. Request that you coordinate this with the appropriate SAC officials and advise Capt. Paul Jones, AFCS, of the name and telephone number of the coordinating officer at March AFB. Capt. Jones has been informally advised that we need and are requesting this circuit.

2. It is also requested that you advise Lt. Col. Kille, SAC, that we will require a telephone drop on the SAC Command Post switchboard at Elselon AFB. This line will be terminated in the Project hanger at Elselon. When Lt. Col. Kille has coordinated this matter, he should notify Maj. Scott, 1895th Comm. Sq. Commander, Elselon AFB, who will arrange to have the line connected.

3. Request this office be advised in the event any problems arise regarding this matter which would cause unusual delays in obtaining this service.

FOR THE DEPUTY DIRECTOR (RESEARCH)

USAF review(s)
completed.
